

Shower and Toileting

Etac has a number of mobile shower commode chairs to choose from. They are all well designed with many smart functions which make daily tasks easier for both users and carers.

Etac Clean mobile shower commode

Etac Clean is a prize winning range of shower commode chairs with different seat heights or built in height adjustability. Etac Clean is also available with comfort padding set or with propelling wheels. They all have the same characteristic design and functions.

Easy manoeuvring and perfect fit

Etac Clean is easy to manoeuvre thanks to the push handle width. Another strong advantage is the push handle's upright position. This ensures that Clean fits over any wall mounted toilet.

Improved access

The seat has a recess at the front and is fully open at the rear. This improves the accessibility for intimate hygiene.

Comfortable and practical foot support

The foot support has a unique design. It can slide in underneath the seat when not needed. The softly curved surface provides comfort and stability for the feet and the heels are protected by the covered sides of the foot support.

Easy to customize

Etac Clean has a wide range of accessories to support a stable position, improve comfort and protect fragile skin. See "Accessories for all Clean models", page 24.
